

JOB STORY

Concrete:
Atlanta Federal Penitentiary

Dā-mite

Atlanta Federal Penitentiary, addition for US Bureau of Prisons, Batson Cook prime contractor, Miller Grading, excavation contractor, Boyette Bros, equipment rental. Project called for excavation of site inside prison for new buildings. During excavation massive concrete foundations were uncovered. Expansive material was used to accelerate schedule to keep project on time. Daigh provided drilling, and material to fracture several foundations including a 32 wide octagonal smokestack foundation that was 8 feet thick.
