

## JOB STORY

**Concrete:**  
Jewfish Creek  
Transmission Tower Pier  
Demolition

**Da-mite**®

Transmission Tower Pier Demolition Project consisted of drilling and placing Da-mite to fracture piers in a highly sensitive area in Key Largo Florida at the Jewfish Bridge replacement project. Job had two pier clusters of four 15 foot diameter piers protruding out of water about 6-8 ft. and about 15 feet tall. Drilled 2 1/4" holes on a 2ft x 2ft pattern to dodge the rebar.

Drilling 2 1/4" holes on a 2ft x 2ft pattern.

John Henry drill on a barge between 4 piers.

Cracks are beginning to develop.

Notice how the cracks have broken cleanly to the closest relief points.

Completed Project
