

## JOB STORY

**Mass Rock:**  
Pre-split Subway Project  
Queens, NY

**Dā-mite**®

2 3/4" holes were drilled with  
a depth up to 24 feet on  
1ft centers 3ft from existing  
subway wall.

Pre-split line drill pattern.

Every other hole  
was loaded.

Cracking occurred from hole to hole full depth.

Da-mite was loaded in sleeved holes due to wet conditions in the holes.

Note the clean break line that was achieved from Da-Mite after blasting.
